Summary

Data-driven BCA student with real-world experience turning raw data into business decisions — currently interning as an MIS Analyst at Zippee, managing rider payouts across 11 stores and building Power BI dashboards for operational reporting. Delivered measurable insights across projects involving 209,874 retail records and 7,043 telecom customers, identifying $2.86M in revenue at risk. Proficient in Python, SQL, Power BI (DAX), and Advanced Excel, with a growing focus on Machine Learning and Data Science.

Education

Jagannath International Management School (JIMS), Vasant Kunj Delhi, India
Bachelor of Computer Applications — Current CGPA: **8.9** *2024 – Present*

Skills

Programming Languages: Python, SQL, C/C++, Java, PHP
Analytics & BI: Power BI, DAX, Data Modeling, KPI Dashboards, Excel (Advanced)
Data Science & ML: Pandas, NumPy, Matplotlib, Seaborn, Plotly
Web Development: HTML, CSS, JavaScript
Tools & Platforms: Git, GitHub, VS Code
CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems
Non-Technical Skills: Communication & Cooperation, Adaptability, Problem Solving, Leadership

Experience

MIS Intern May 2026 – Oct 2026
Zippee, Delhi

- Processed weekly rider payout cycles across **11 stores** for in-house and vendor-supplied riders using store-specific rate cards, auditing vendor commissions to flag anomalies and ensure zero billing discrepancies before payout finalization.
- Built Power BI dashboards tracking key operational metrics — Delivery Cost Per Order (DCPO), weekly sales, rider count, order volume, vendor-wise cost breakdown, and payout trends — to surface weekly performance insights for management review.
- Streamlined weekly MIS reporting in Excel by consolidating rider activity, payout summaries, and vendor invoices into structured trackers for operational decision-making.

IPR Coordinator – Institution's Innovation Council (IIC) 2024 – Present
Jagannath International Management School (JIMS), Delhi

- Organized 30+ IPR sessions, workshops, and innovation events with average participation of 40–50 students per event, coordinating with faculty, student teams, and industry experts to drive institutional initiatives.
- Led Smart India Hackathon 2025 as Main Coordinator for 100+ participants, overseeing end-to-end logistics including registration, volunteer management, and certificate distribution; secured **2nd place** as a participant.

Projects

Telecom Customer Churn Analysis | *Power BI, DAX, Excel* | GitHub 2026

- Built two interactive Power BI dashboards analyzing churn behavior of 7,043 telecom customers, identifying $2.86M in yearly charges at risk with an overall churn rate of 26.54%.
- Developed custom DAX measures for Churn Rate %, Average Monthly Charges, and Ticket Frequency, with dynamic slicers for real-time filtering by contract, tenure, and internet service.
- Identified key churn drivers — Month-to-Month contracts (88.55%), Fiber Optic service (41.89% churn rate), and Electronic Check payments (45.29%) — and delivered retention recommendations including contract migration incentives and proactive tech support triggers.

Retail Sales Analysis | *Python, MySQL, Pandas, Matplotlib* | GitHub 2026

- Transformed a denormalized retail dataset of 209,874 records into a normalized relational database (MySQL) across 5 tables, improving query efficiency and eliminating data redundancy.
- Performed end-to-end business intelligence analysis across product performance, regional trends, customer segmentation, and seasonality using Python (Pandas, Matplotlib).
- Uncovered key insights: West region led with 31.6% of total sales; Technology category generated $836K in revenue; Home Office segment had highest average order value at $241. Identified a sales-profit correlation of 0.716 and seasonal demand spikes, providing recommendations on discount strategy, geographic expansion, and inventory planning.

Certifications

Google Data Analytics Professional Certificate – Coursera
Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle
Artificial Intelligence Fundamentals – IBM SkillsBuild
